

EURO ENVIRO

GRAZ · 2020

Combating the Climate Crisis
—— A Systemic Approach

Europe's Biggest Independent Students Congress on Environmental Issues

April 20 — 24 2020
Graz, Austria

CHANGE CLIMATE CHANGE.

EuroEnviro is a congress on environmental issues. Therefore EuroEnviro is a platform for students to exchange ideas from all disciplines and build a European network. Within the scope of lectures, workshops and excursions on this year's topic a deep and interdisciplinary understanding will be generated. Young students from all cultural and social backgrounds will meet to share their ideas and develop a vision for a green future.

WHY YOU SHOULD BE PART OF EUROENVIRO 2020

- Get a deep insight in the topic of climate change
- Discuss with scientists, experts and activists
- Experience interdisciplinary approaches
- Exchange with students from all over Europe
- Share and develop your vision
- Enjoy the amiable city of Graz
- Be part of the green change

THE TOPIC

Climate Change has never been in the center of attention as it is now. At the conference, academic knowledge from leading scientists on climate physics, social and economic effects, factors of climate psychology and much more will be shared. The topic will be worked on from different perspectives and action levels connected with an all-embracing systemic view.
