CALSADA R.S.D.

Descripción:

Copyright© 2026 Universidad de Granada

The project addresses the significant concern of the low quality of graduate legal education in the Philippines, which has been shaped by an overemphasis on professional training for the bar exam and a lack of research integration, digitalization, and efficient connectivity in law schools. CALSADA R.S.D. will focus on two main goals: (1) the development of a National Framework for Quality and Sustainable Connectivity in graduate legal education, and (2) the increased capacities of national authorities and LEIs academic and administrative bodies to design and offer quality graduate programs.
