Master's Programme in International Cybersecurity and Cyberintelligence 2026/2028 - 1st call

The **Arqus European University Alliance** has officially opened the first application call for the 2026–2028 intake of the **Joint Master's Programme in International Cybersecurity and Cyberintelligence (MICAC)**, a two-year international master's degree delivered jointly by four leading European universities.

The programme is jointly delivered by the University of Padua, Vilnius University, the University of Granada, and the University of Minho, and is taught entirely in English.

The first application call is now open and will close on **26 February 2026 at 12:00 CET**.

Applications must be submitted online through the Arqus application platform:
<https://apply.arqus-alliance.eu>

For support during the application process, candidates may contact the programme administration team at:

infocybermaster@arqus-alliance.eu
