Vicerrectorado de Internacionalización

STEAM4GREEN: STEAM Education for Green Energy, Climate and Environmental Applications (STEAM4GREEN)

Tipo de proyecto: KA2 Small-scale Partnership

Fechas: 01/06/2026 31/08/2028

Coordinación: Science for Sustainable Future Slovakia (Eslovaquia)

Socios:

Universidad de Granada (España)

Descripción:

STEAM4GREEN aims to strengthen climate and energy literacy among secondary-school students in Slovakia and Spain through innovative STEAM education. The project will adapt and pilot a proven sustainability education model, co-develop interdisciplinary teaching modules with teachers, researchers and industry experts, inspire students—especially girls—to engage with STEM topics, and establish lasting cooperation between schools, universities and innovation ecosystems.

Cofinanciado por la Unión Europea
