ABOUT the International Welcome Centre

The International Welcome Centre (IWC) is among a handful of its kind in Spain and Europe, catering directly to the needs of **international doctoral candidates, postdocs, researchers, and visiting staff** — before, during, and after their mobility period at the University of Granada (UGR).

At the IWC we provide you with information and targeted assistance in all non-academic matters that are important during your time at the UGR. We thereby enable you to make the most of your academic life and research, while at the same time facilitating your integration in Granada.

Extensive SERVICES

The IWC provides essential information and assistance in a wide range of areas, including visa applications, residence permits, funding opportunities, accommodation, schooling and education options for family members, as well as UGR facilities of all kinds.

WHO CAN MAKE USE of the IWC's services?

- International doctoral candidates
- International researchers
- International academic staff
- International postdocs

MULTILINGUAL services

At the IWC we provide services in **English, Spanish and French** (and, if necessary, in a wide range of other languages via the University's International Office).

INTERNATIONALIZATION strategy

The UGR is deeply committed to the internationalization of its teaching and research. It is Europe's leading university in student mobility, and also has an extensive range of partners all over the world in initiatives such as dual undergraduate and postgraduate degree programmes, international internships, short winter and summer programmes, and joint research and academic cooperation projects.

The IWC, offering a range of important services to our international visiting scholars and researchers, opened its doors for the first time in March 2015, heralding a new phase in the University of Granada's long-standing commitment to becoming a benchmark institution in internationalization initiatives.

A EURAXESS Local Contact Point

Launched in 2002 by the European Commission, **EURAXESS – Researchers in Motion** is a unique, pan-European initiative providing those who wish to pursue research careers in Europe with access to a comprehensive range of support and information services.

The IWC, as the EURAXESS Local Contact Point, assists you and your family in all matters related to your professional and daily life, including everything from career opportunities, legal issues, tax and social security, to health and family support.
