

Włocławek, 17th January, 2013

Dear Sir/Madam,

Let me introduce Państwowa Wyższa Szkoła Zawodowa we Włocławku (Higher Vocational State School in Włocławek). Włocławek is the city with about 120 thousands of citizens, located in the central Poland. Our institution is young - it was established eleven years ago. We have above 2000 students, who can study the following faculties: German Philology, English Philology, Russian Philology, Management, Computer Science, Administration and Pedagogy. All faculties are leaded up at Bachelor level. The didactic base of PWSZ in Włocławek consists of three didactic buildings located in different districts of the city and Rector's office building located in the city centre.

Since the school is young, our strategy focuses on general development. It means that our activities in the future will concentrate on extending and improving didactic base, establishing new faculties from economy and engineering areas and extending cooperation with foreign partners.

As a part of improving didactic base the modernisation of three our didactic buildings has been finished thanks to European Union funds.

In December 2005 we received Erasmus University Charter and became the member of Erasmus Programme. We have signed bilateral agreements with about 30 foreign partners and realise students and staff mobility exchange. We also implemented ECTS programme for all faculties and specialities.

Regarding foreign cooperation we are still looking for new partners. We are especially interested in staff and students mobility at Bachelor level for Management, Pedagogy, English Philology, German Philology, Russian Philology and Administration.

Please, respond if you are interested in cooperation with Państwowa Wyższa Szkoła Zawodowa in Włocławek in above-mentioned areas. If more information about our school is required, please don't hesitate to contact Małgorzata Waśk, tel: +48 668 075 512, write an email: malgorzata.wask@pwsz.wloclawek.pl or visit our website: www.pwsz.wloclawek.pl

With best regards

Małgorzata Waśk
International Relations Officer
