Erasmus+ Networking Seminar - Jordan

Venue: Hilton Hotel, Dead Sea, Jordan

24-25 October 2022

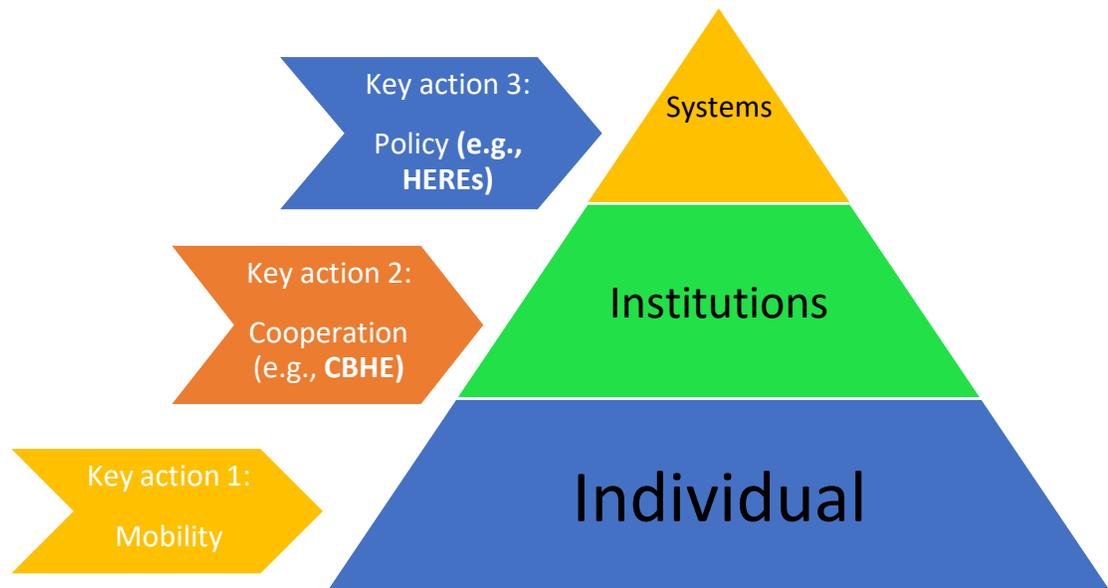

What is Erasmus+?

Erasmus+ is the European Union (EU) programme for education, training, youth and sport. Erasmus+ funds academic and youth mobility and cooperation projects that involve partners from EU Member States and Third Countries Associated to the Program on one hand and other countries throughout the world on the other hand. There are 27 EU Member States plus six other countries, namely Iceland, Liechtenstein, Norway, Republic of North Macedonia, Serbia and Turkey that are associated with the Programme.

The new phase of Erasmus+ (2021-2027) will support the priorities set out in the European Education Area, the Digital Education Action Plan and the European Skills Agenda. Additionally, it will help realize the European Pillar of Social Rights, implement the EU Youth Strategy 2019-2027, and develop the European dimension in sport. Further, the Erasmus+ funded projects will focus on social inclusion, green and digital transformation, and young people's civic participation. Erasmus+ supports activities that are closely matched with the EU's priorities for cooperation policy with other regions.

The general objective of the Programme is to support the educational, professional and personal development of people in education, training, youth and sport, in Europe and beyond, thereby contributing to sustainable growth, quality jobs and social cohesion, to driving innovation, and to strengthening active citizenship.

The program different actions target beneficiaries at three levels: individual, institution and system level.

Jordan in Erasmus+ Programme

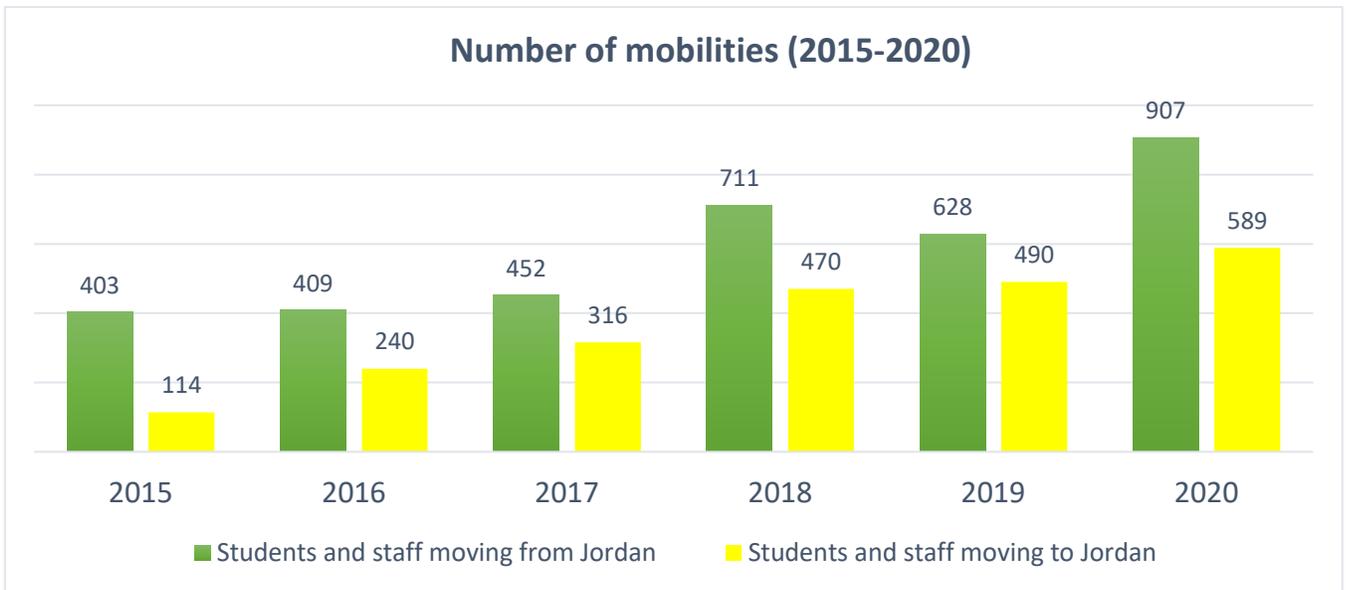

Jordan participated in the Erasmus+ program and its predecessor since 2002. More than 107 cooperation projects were funded, and close to 6000 students and staff benefited from the mobility scheme.

International Credit Mobility (ICM)

For over 30 years, students and staff have moved between European universities in the Erasmus programme. **Since 2015**, Erasmus+ has also allowed short-term mobility to Europe from other parts of the world for students, researchers, and staff. This two-way mobility allows students to study in a foreign university for 3-12 months and obtain credits that are then recognized at the sending institution as part of their degree. A grant for staff mobility is also possible for 5-60 days. There are distinct budgets for different regions of the world that are divided between all EU Member States and Third Countries Associated to the Program.

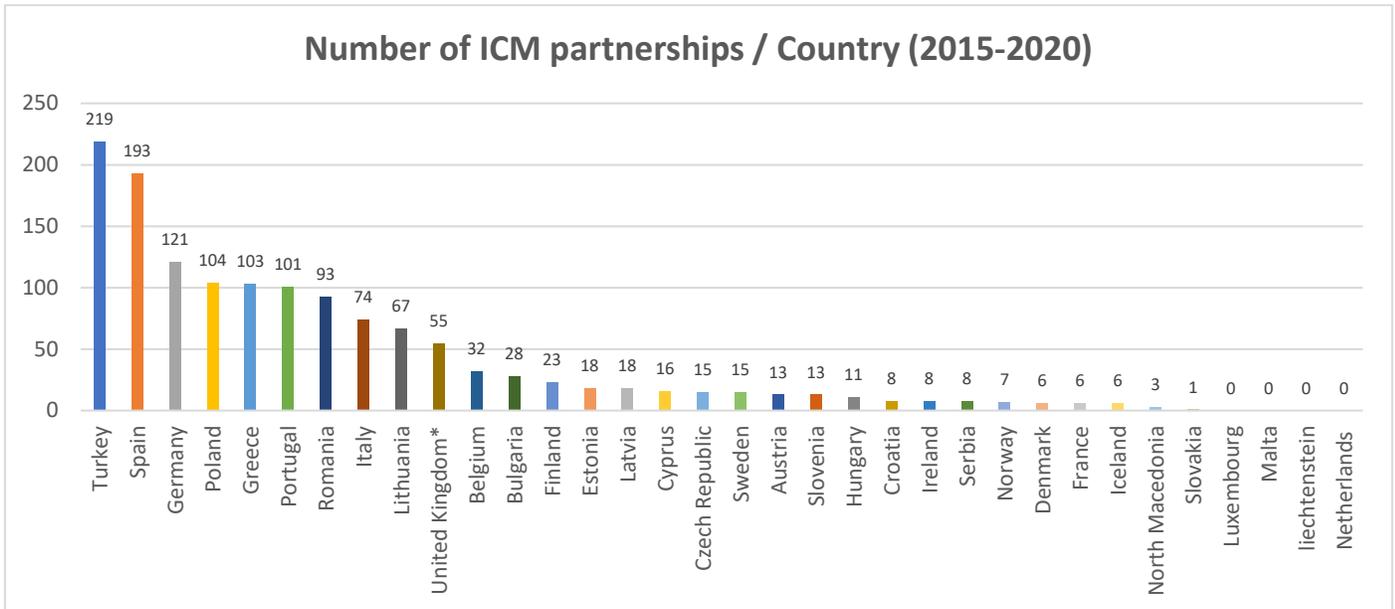

Institutions from EU Member States and Third Countries Associated to the Program make up bilateral partnerships with universities from Southern Mediterranean countries and apply on behalf of their partners.

Since 2015, ICM enabled more than 5700 student and staff to mobilize from and to Jordan, as shown in the figure below

Jordanian Higher Education Institutions managed to establish relations with hundreds of HEIs in 30 countries.

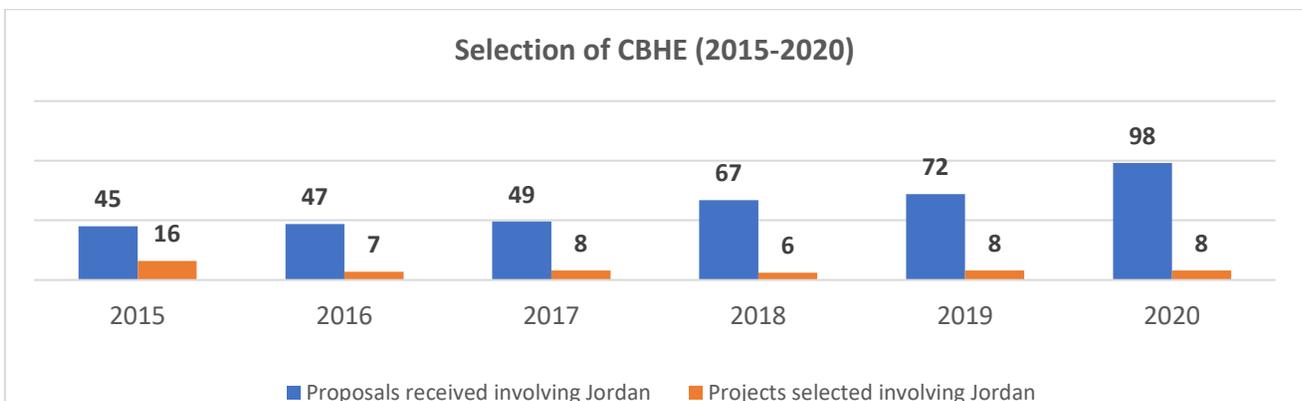

Jordan in Capacity Building in Higher Education

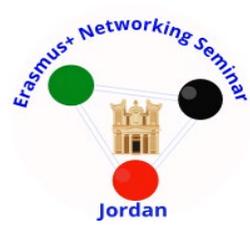

Erasmus+ Capacity Building in Higher Education (CBHE) action projects, which last from two to three years, are aimed at modernizing and reforming higher education institutions, developing new curricula, improving governance, and building relationships between higher education institutions and enterprises. They can also tackle policy topics and issues, preparing the ground for higher education reform, in cooperation with national authorities.

Capacity building projects can be addressed to a group of countries or a single country. They can also be cross-regional, including institutions from different partner regions.

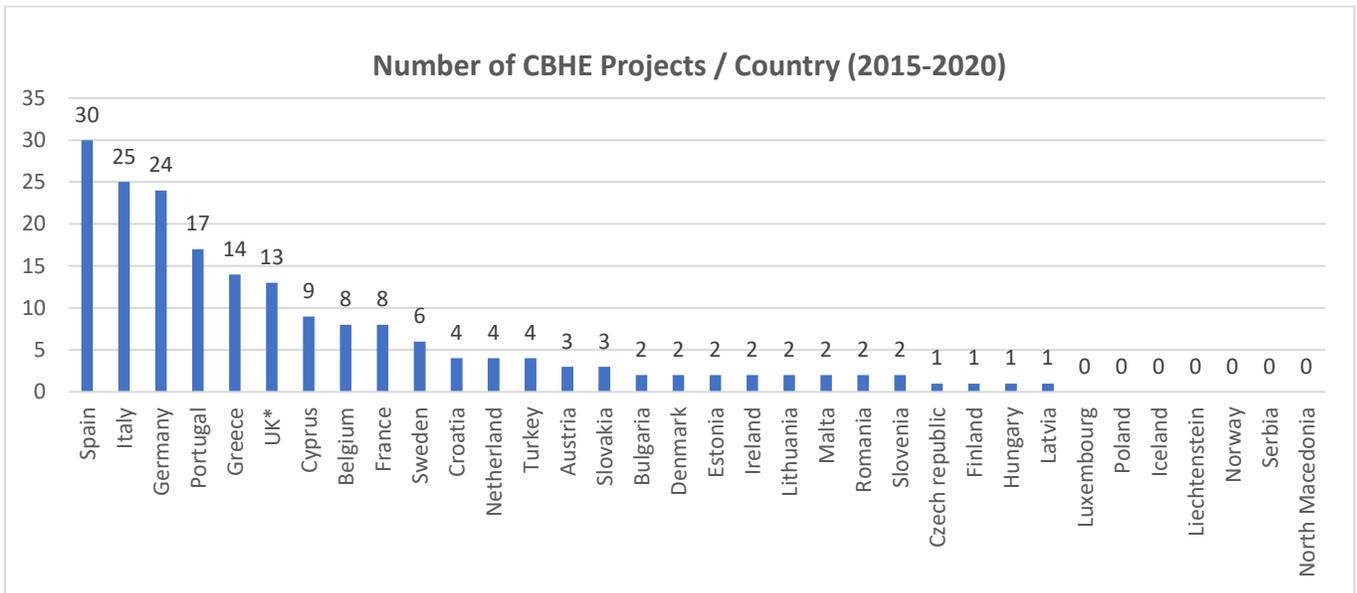

Erasmus+ has funded **53 CBHE projects** in Jordan. Jordanian HEIs act as **Grant Holder for 16 projects**. Erasmus+ enabled Jordanians to prepare better projects, and to manage these projects effectively.

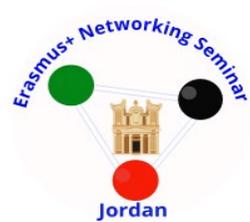

The National Erasmus+ Office in Jordan has dedicated its efforts to improve CBHE projects for Jordanian HEIs through information days, seminars conducted especially to CBHE, and practical workshops on “How to prepare good project proposals”. As a result, and under the fourth and fifth calls for CBHE, Jordanian institutions have confirmed their strong interest in this action making Jordan one of the most active countries in the South Mediterranean region and the most active country in the world in the last call 2020 with 98 project proposals submitted.

CBHE projects enabled JO HEIs to collaborate with their counter partners from 27 EU Member States and Third Countries Associated to the Program.

Erasmus+ Networking Seminar - Jordan

The Erasmus+ phase II has expanded its international dimension by allowing Third Countries not Associated to the Program (such as Jordan) to participate in different actions, in addition to the International Credit Mobility (ICM) and Capacity Building in Higher Education (CBHE). In particular, Jordan is now allowed to participate in the following actions:

Key action 1 – Learning Mobility of individuals:

- Mobility project for higher education with partner countries (“ICM”)
- Mobility for learners and staff in Vocational Education and Training (VET)
- Mobility of young people ‘Youth exchanges’
- Mobility projects for Youth workers
- Youth participation activities
- Virtual exchanges in higher education and youth

Key action 2 - Cooperation for innovation and the exchange of good practices:

- Erasmus Mundus Actions
- Capacity-building in the field of higher education (CBHE)
- Capacity-building in the field of Vocational Education and Training (CBVET)
- Capacity-building in the field of Youth (CBY)

Wider Objective:

The seminar aims at enhancing the cooperation between Jordan and EU Member States and Third Countries Associated to the Erasmus+ Program under different actions of Erasmus+, through organizing a networking event that enables staff from Jordan and these countries to interact, exchange information, and share best practices as well as challenges.

Specific Objectives:

1. To establish links between Jordan and Erasmus+ EU Member States and Third Countries Associated to the Program.
2. To provide a venue for face-to-face contacts between Jordanian institutions and their counter partners from EU Member States and Third Countries Associated to the Program (Higher Education Institutions, VET and Youth Institutions).
3. To increase the awareness about HE, VET and Youth strategies between participating countries.
4. To promote university-enterprise cooperation in cooperation projects and encourage the involvement of non-education stakeholders.

Participants:

1. National Agencies in EU Member States and Third Countries Associated to the Program, with special attention to the countries with little or no participation with Jordan.
2. Interested HEIs from EU Member States and Third Countries Associated to the Program, and in particular representatives of the Offices for International Relations, to be nominated by the National Agencies.
3. HEIs from Jordan, such as Vice-Presidents, Deans of relevant schools, Directors and selected staff from the Offices of International Relations, and highly interested academicians.
4. Vocational Education and Training Agencies from Jordan and EU Member States and Third Countries Associated to the Program.
