PROMPT-H Számítástechnikai Oktatási, Kereskedelmi és Szolgáltató Kft. (Hungria)

Descripción:

The AISAB Project will address the need within the EU to improve the level of innovation and its impact, particularly in SMEs. The project objectives are to develop learning materials aimed at enhancing student skills in assessing and implementing innovation, and build tools that students can use to facilitate their impact when consulting in SMEs. It will also develop a toolkit for SMEs to self-diagnose their innovation practice, as well as putting in place business intervention approaches that can be used to enhance innovation practices in SMEs.
