

Monitoring physical fitness to enhance the development of physical literacy in children and adolescents (FitBack4Literacy)

Tipo de proyecto: Sports

Fechas: 01/01/2023 31/12/2025

Coordinación: University of Ljubljana (Eslovenia)

Socios:

Universidad de Granada (España)

University of Zagreb (Croacia)

University of Tartu (Estonia)

Free University of Bozen-Bolzano (Italia)

University of Belgrade (Serbia)

University of Jyväskylä (Finlandia)

EUPEA - European Physical Education Association (Luxemburgo)

ISCA - International Sport and Culture Association (Dinamarca)

University of Lisbon (Portugal)

Descripción:

The overarching aim of FitBack4Literacy is to design and test an open, transnational fitness monitoring webtool to deliver pertinent feedback to educators, children, youth, and their parents as a means of directly enhancing Physical Literacy (PL) development for all.
